Raising Awareness and Making the World a Better Place p8
Young Carers Toolkit p12
Relaxed Performance Panto p16
Where did summer go?! With the months flying by, we are now (somehow) in the Autumn term.

This issue includes information on Sports and Play in Cardiff and the Vale (pages 4 & 5), Halloween fun (page 9) and even details of this year’s Pantomime (page 16).

What’s new since the last issue?

The Index continues to grow in Cardiff and the Vale with over 1,000 families signed up to receive The Index across the two areas.

We are promoting The Index far and wide after producing the first joint Annual Report for The Index. To view the report, visit your local Family Information Service webpage.

Cardiff Family Information Service and Vale Family Information Service have both become ASD Aware Organisations, after taking part in an ASDInfoWales initiative.

Visit www.asdinfowales.co.uk to find out more about the scheme and access some amazing resources on Autism Spectrum Disorder for families and professionals.

Don’t forget, if you know of anyone who would benefit from signing up to The Index, they can sign up using the online form or by contacting their local Family Information Service.

If you want to promote a service or share your story, please let us know as we are always looking for new and exciting articles to share with readers.

Happy Reading!

Barry Beavers Disabled Swimming Club

Barry Beavers is a swimming club for adults and children with disabilities or long-term health conditions. We are a water awareness club and aim to ensure that all members are water happy and are given the opportunity to learn to swim. This is achieved through the use of qualified swimming coaches and lifeguards.

The club is open to all impairments and provides a fun, friendly, knowledgeable swimming environment. We teach young and old to learn to swim with maximum safety as well as teaching water awareness.

The club has been running for over 20 years, with a huge amount of experience - this club has been awarded the Insport Ribbon.

When: Saturdays 3.45pm – 4.45pm
Where: Barry Leisure Centre, Greenwood Street, Barry, CF63 4JJ

Rubicon Dance

Launched in 1976, Rubicon Dance has been providing exciting community based dance sessions for more than 40 years. We offer long-term, regular and relevant dance programmes for some of the most disadvantaged people in Wales. In a typical week we deliver 150 regular sessions working with approximately 2000 people.

We work extensively with people with disabilities including people with high support needs. The work that we do is recognised to be of exceptional quality and is highly valued by the participants, carers and support staff.

Our sessions are delivered by specialist dance leaders, supported by our team of volunteers, and take place across the Cardiff area, in community venues and at our dance centre in Adamsdown. We create an inviting atmosphere that encourages disabled people to dance together and explore their creativity.

We have classes for Adults and Young People available. Please call us for details and to arrange a trial class.

Raising Awareness and Making the World a Better Place

Vale Family Information Service recently attended an ASD Parent Support Group where we met three lovely mums – one of whom was Claire.

Claire is mum to three children on The Index and is a mobile hairdresser offering cuts to children and young people with disabilities or additional needs in Ysgol Y Deri and beyond!

After meeting Claire, it became clear that she had lots of information about services and support for children and young people with disabilities / additional needs.

I met again with Claire and she told me so much about the activities and groups that she accesses for her three children, and stressed the importance of being resourceful.

In the next issue we will take a closer look at some of the services and support groups that Claire and her family access across Cardiff and the Vale!

Julia Sky

Meet Claire:

Claire has been volunteering, providing haircuts for children with additional needs, for nearly 10 years. It all started when her eldest son was undergoing his Autism diagnosis and started at Ashgrove School. Since then, Claire has cut hundreds of children and young people’s hair and continues to volunteer at Ysgol Y Deri, as well as being on the Governors Board for the school. “Connecting individually with each child is what’s important; I get to know them and they trust me”.

In her personal life, Claire has found that making people aware of her sons ASD diagnosis has helped people to understand – she has had a jumper printed which her son wears when he goes out, this raises awareness to members of the public and can help to explain his behaviour.

Claire told me that for her, the important thing is focusing on the positive in each day, which is something that she tells all three of her children. “I tell them, I don’t want to know the bad stuff, tell me what was good about today?”

Claire’s Words of Wisdom:

“Disability doesn’t define you; it’s just a little bit about you.”

“Find a way to connect with your child – don’t give up, just keep looking!”

“It’s all about raising awareness and making the world a better place”

Parent to Parent is the NAS’ award winning UK wide confidential emotional support service, provided over the phone by trained volunteers, who are all parents/carers of autistic children and adults.

The volunteers are based across the whole of the UK, which means that there is increased anonymity for those who may not want to share information with someone in their local area.

The volunteers all have personal experience of autism and the impact it has on their own families. They are there to give parents/carers the opportunity to talk through any issues, feelings or problems they’re experiencing. They can suggest helpful strategies, signpost them to other sources of information and support, or just provide a non-judgmental listening ear.

Parents/carers can call Parent to Parent on 0808 800 4106, at any time, day or night, and leave a message on our 24-hour answerphone. Please be aware that you will not speak to someone immediately as this is not a manned line. If you leave a message, a volunteer will call you back as soon as possible at a time which suits you.

Experience a Sensory Room

A chance for children aged 4 – 11 years on the Autism Spectrum to experience a sensory room and take part in exciting new research.

Your invitation:
We would like to invite you and your child to come and use our new state-of-the-art sensory room (Multi-Sensory Environment, MSE) at the Wales Autism Research Centre in Cardiff University!

By coming to use our sensory room, you will also be taking part in exciting research. This research is looking into the effects of using a MSE with children on the Autism Spectrum. This research would take place at a time convenient to you and your travel expenses to our centre will be reimbursed.

What’s involved in taking part?
- You and your child visit us at the Wales Autism Research Centre in Cardiff city centre and will spend 3 hours with us.
- Your child will enjoy two play sessions in the MSE as well as taking part in some games and puzzles outside the MSE.
- Your child will receive a certificate, stickers and a small gift for taking part.
- Travel expenses to our centre will be reimbursed

How to get involved?
If you are interested in taking part, please contact Katy Unwin: UnwinK@cardiff.ac.uk / 029 2087 0355
The Vale Autism Outreach Service are delighted that their work developing the interactive Practical Autism Toolkit has led to them being shortlisted as finalists for the NAS Professional Awards and highly commended in the HWB Digital Learning awards this year.

Originally developed as an interactive learning resource for staff working in mainstream schools, it’s also been downloaded by many parents/carers and professionals across Wales and beyond.

The resource is full of practical tips, strategies and resources to support young people with autism. Video clips, photo galleries and interactive diagrams are organised into chapters.

Chapters explain how to:

- Make simple adaptations to verbal communication, use visual supports and maximise opportunities for your child to develop their language skills
- Create a sensory friendly environment and help your child achieve and maintain a calm alert balance
- Develop predictable routines
- Support your child to develop essential social skills and expand their social understanding
- Teach your child to understand and self-regulate their emotions and responses
- Use simple strategies to prevent challenging behaviour and provide supportive responses

The Child Brain Injury Trust

Every 30 minutes, a child or young person in the UK will acquire a brain injury. Bones can mend and scars can heal but a brain injury stays with you for life and impacts on everything you think, feel and do.

The Child Brain Injury Trust provides support for families following childhood acquired brain injury.

We have recently had a service change in South Wales and we now have a Child and Family Support Coordinator covering the area once again.

Our Child and Family Support Coordinators work in hospitals, home, school and the community. Child and Family Support Coordinators provide children, young people, their families and the professionals working with them, with the support that they need in order to live their lives to the full potential.

Referrals can be made directly to Kelly Bevan from professionals or family members

Young Carers Toolkit

Young Carers are children and young people aged from 7 to 18 years, who help care for a family member due to illness, disability, a mental health problem or an addiction. Not every child or young person in this situation will be a young carer but, if they are, they will often take on practical and/or emotional caring responsibilities that would normally be expected of an adult.

In August 2017, the Welsh Government re-launched their Young Carer Toolkit. This toolkit, which is an online resource, is intended to be a training aid for health, education, social services professionals, as well as Young Carers themselves.

The refreshed toolkit has lots of information about identifying, raising awareness and engaging with young carers; there are also links to a series of videos on YouTube.

Additionally there are a series of films in English and Welsh, produced by the Pogim Organisation, giving young carers tips on coping with financial matters. http://pogim.org/index.php/money-matters

Are you a lifelong carer? Don’t be alone!

For over 30 years Cardiff & the Vale Parents Federation have supported lifelong carers who offer support to a person with a lifelong learning disability or difficulty.

Providing such care can place a family under considerable pressure and be very isolating. Having the opportunity to meet others that understand is invaluable.

The charity is led by parents who understand what caring for a loved one 24/7 involves and appreciate the sacrifices families face.

The Parents Federation receives support from local councils in the Vale of Glamorgan and Cardiff along with other funders and relies upon volunteer parents to act as representatives and steer the organisation.

We offer a number of free information and signposting services including an extensive information guide called Where You Stand. In addition, members are kept informed via newsletters, events and training days.

The Lloyds Bank Foundation have recently funded the development of a new database and software that allows us to store information more securely but also send emails or text messages to quickly share information with specific members - keeping our 1600+ members up to date quickly and easily.

Our Carers Gatherings are social events held in local venues where lifelong carers can meet, share experiences and information, overcome isolation, exchange coping strategies, and have fun. Along with Glamorgan Voluntary Services and the Touch Trust, we have been awarded three years Big Lottery funding to expand this project across the Vale of Glamorgan and into Cardiff.

If you are a lifelong carer and would like to join Parents Federation, please contact admin@parentsfed.org / 029 2056 5917

Family Fund’s Information and Support Day

Family Fund is the UK’s largest charity providing grants for families raising disabled or seriously ill children and young people. Last year, we provided 88,119 grants or services worth over £33 million to families across the UK.

It can be a struggle financially, emotionally and physically for families raising a disabled or seriously ill child, and these grants help break down many of the barriers families face, improving their quality of life and easing the additional daily pressures.

We believe that all families raising disabled or seriously ill children and young people should have the same opportunities as others. Beginning with the most vulnerable, those on low incomes, and considering all conditions against our disability criteria, we aim to make a difference to outcomes for disabled or seriously ill children and young people and the lives of the families raising them across the UK.

Family Fund are hosting an Information and Support Day in Cardiff where families and professionals can drop in to learn more about the support available.

When: Tuesday 31 October 2017, 10am – 2.30pm
Where: Syndicate Room D, Cardiff City Hall, Cathays Park, Cardiff CF10 3ND

Learn more about support services, grants and information available to you and your disabled child or young person. Meet Family Fund and other organisations or come along and get help with your Family Fund application!

Learning Disability Wales is involved in a project aiming to improve support for parents with a learning disability. The Working Together with Parents Network aims to ensure that the perspectives, needs and rights of parents with a learning disability are reflected in all relevant family policies, practices and procedures.

In Wales, the network brings together advocates, professionals and parents with a learning disability from across the country to share good practice, discuss issues and support parents with a learning disability. It is an opportunity for members to keep up to date with issues for parents with a learning disability across the UK.

The South Wales Network meets quarterly and runs in partnership with Vale People First. Meetings are a chance for:

- Advocates / Professionals to share and discuss case studies and look at how to improve policy and practice in Wales.
- Parents with a learning disability to meet, share experiences and work to make things better for parents with a learning disability in Wales.

Meetings are free and all parents with a learning disability are welcome, whether their children live with them or not as well as professionals working with parents with a learning disability.

Emotional Wellbeing Service

The Emotional Wellbeing Service went live in July 2016 and since then the service has received over 600 referrals from professionals, parents and young people seeking advice and support.

The team has a wealth of knowledge and experience at its disposal. The service is committed to providing the best possible support to young people throughout Cardiff and the Vale of Glamorgan, aged between 10 and 17 who would like to learn more about their emotional wellbeing.

This brief intervention service offers both 1:1 support and group work programmes. We aim to equip young people with the skills and knowledge to build emotional awareness, develop emotional resilience and learn about positive coping strategies with the aim of promoting positive mental health.

The service also provides support to young people (up to and including 18 year olds) experiencing issues around substance misuse, focussing particularly on minimising harm and supporting onward referrals to specialist services (where required).

SNAP Cymru

Do you have questions or concerns about your child’s additional learning needs (ALN) and how they are being met?

Information and Advice
SNAP Cymru provides independent information, advice and support for parents of children and young people (0 - 25) with ALN.

Our advice is impartial, honest and reliable and is provided through our helpline, website, specialist casework service and independent professional advocacy.

Our website includes template letters, advice guides and frequently asked questions so people have a better understanding of their rights and responsibilities to help to resolve their problems.

Specialist Casework Service
Specialist advisors will help families prepare in advance for meetings. We ensure they understand the process, have the right information and, where necessary, support from a Family and Young Persons Officer to attend.

We help families to:
• communicate their views and vital information
• ask constructive questions or challenge current thinking
• help young people or parents to feel more confident to self-advocate, ask questions and speak up

Avoiding and Resolving Disagreements
Sometimes it can be difficult to reach agreement about meeting a child’s needs. Where disagreements do happen, getting impartial, reliable advice or specialist support can help ‘level the playing field’ and prevent further conflict.
